

What sets Sandia apart from the competition? Innovation, imagination, and simplicity.

Inventing new vacuuming technologies is an ongoing process for Sandia. It means defying conventional wisdom and searching for innovative ways to make our products better. The patented technologies we build into our products are the direct result of our non-conventional approach to problem solving. Compare our features, quality, and overall value. At Sandia, we turn great ideas into great products!

Sandia

INDUSTRIAL VACUUMS

Sandia's commitment to design excellence continues with the introduction of the

Hipster DP Series Vacuums.

Clever, Innovative, Outstanding! That's what we hear about Hipster every day. The Hipster DP Series delivers the latest advances in vacuum design technology. Sandia offers four motor and color choices as well as our patented noise suppressing exhaust chamber for the quietest vacuum in its class.

Compare Sandia with the competition. The choice is simple. Sandia!

D-P Hipster

Weight: 7.0lb

 Capacity: 6 quarts
 Airflow: 112 cfm
 Power: 802 watts
 dB: 65
 Amps: 6.8
 Volts: 115v

Patent Pending

Super Hipster

Weight: 7.0lb
 Size: 11" h 8" w
 Capacity: 6 quarts
 Airflow: 150 cfm
 Power: 1340 watts
 dB: 69
 Amps: 11.5
 Volts: 115v

Patent Pending

Hepa Hipster

Weight: 7.0lb
 Size: 11" h 8" w
 Capacity: 6 quarts
 Airflow: 140 cfm
 Power: 1340 watts
 dB: 65
 Amps: 11.5
 Volts: 115v

Patent Pending

Aviation Hipster

Weight: 7.0lb
 Size: 11" h 8" w
 Capacity: 6 quarts
 Airflow: 112 cfm
 Power: 400 Hz
 Amps: 6.8
 Aviation Hipster uses a 400 Hz Motor

Patent Pending
